NiteSight Africa is a leading provider of cutting edge luminescent technologies including SABS approved safety signs, Personnel protective equipment, Building fire and safety as well as escape route marking systems, high - performance photoluminescent products and LED safety products.

Locally manufactured products are available for a multitude of applications and industries, with performance exceeding South African standards with service and low prices to match.

NiteSight has a level 4 BEE rating and is a member of the South African National Sign Association. Our products represent the finest in performance and technology globally, with both stock and bespoke solutions for all safety needs.

Project management, design, specification and installation services are also available, ensuring a one - stop - shop solution for any clients requiring safety systems.
SERVICES

NITESIGHT AFRICA

SAFETY AUDITS:
NiteSight Africa offers clients an all encompassing Safety Audit, to rate your building according to SABS fire and safety regulations and supply an assessment of what you require to make your building safe!

DESIGN AND WAYFINDING SOLUTIONS:
Careful planning is the key to creating the most functional, attractive and cost-effective signage installation possible. You can rely on the thoroughness of our design and planning group to ensure a wayfinding solution tailored to your specific style, budget and overall needs. Proper planning also plays an important role in keeping your facility compliant with regulatory standards.

INSTALLATION:
The best design, planning and signage products have limited value if they’re not properly installed. Our interior and exterior signage products are installed by our factory trained and certified personnel. Regardless of the size of your signs or the complexity of your installation, we provide complete turnkey service to save you time and to protect your investment for many years to come.
SYMBOLIC SAFETY SIGNS
Photoluminescent, Reflective, ABS and Chromodek.

The below signs are available in the following sizes:
150 x 150mm, 190 x 190mm, 290 x 290mm as single units. They are also available in framed combinations, Double sided, Single sided, Wall mounted or Hanging.

Our state of the art digital department is equipped to manufacture many products on many mediums.

**OCCUPATIONAL HEALTH AND SAFETY ACT - 1993**

**NOTICE IN RESPECT OF MACHINERY OTHER THAN A POLE UNDER REGULATION 9 OF THE OCCUPATIONAL HEALTH AND SAFETY ACT 1993**

1. Every employer or user of machinery is required by law to provide safe equipment in connection with machinery, and it is an offence for any person to fail to use such equipment properly or to interfere with them.

2. No person working in close proximity to moving machinery shall wear any loose fitting outer clothing, any jewellery or ornament, any watch or key chain, any long loose hanging hair or anything which may be caught up in any part of such machinery.

3. Under any apparatus approved by an inspector is used, no driving belt shall be stopped or unstopped whilst machinery is in motion, except in the case of a drive belt which may be stopped on the control panel of a machine tool in order to alter the working speed of such tool.

4. Machinery in motion shall not be cleaned, repaired, adjusted or oiled, unless such machinery cleaned, repaired, adjusted, or oiled by a competent person when it is impracticable to stop such machinery.

5. No person other than a competent person shall enter the safeguarded area of machinery in motion, and then only if it is impracticable to stop such machinery.

6. No person under the influence of alcohol or drugs shall enter any premises where any machinery is used.

7. Any accident or other incident which threatens or is likely to threaten the safety of employees shall be reported immediately to the employer, or user of machinery.

8. No person supervising machinery and no person operating machinery shall, without permission of any supervisor, authorised any other persons to do this work.

9. Any person intending to start a machine shall before doing so satisfy himself that no other person is endangered.
SIGNAGE OPTIONS

PHOTOLUMINESCENT SIGNAGE

Size Combinations:
- 190mm
- 290mm
- 440mm
- Custom Sizes

Framed or unframed
SABS Certified product

REFLECTIVE SIGNAGE

Size Combinations:
- 190mm
- 290mm
- 440mm
- Custom Sizes

Framed or unframed

Substrate:
- ABS
- Chromodek

Applications:
- Mining and road uses where vehicles and Personnel have lights that will reflect off signage

LIGHT BOXES

Size Combinations:
- 190mm
- 290mm
- 440mm
- Custom Sizes

Framed only

Applications:
- Underground, Escape routes, Dark Areas, Conference rooms or anywhere where there are a large number of people
EVACUATION ROUTE MAPS

Custom route maps digitally printed onto “Glow in the dark” material and framed in neat aluminium frame.

EVACUATION ROUTE MARKING TAPES AND STAIR NOSING

“Glow in the dark” materials are used to increase safety in escape routes and stairwells. Tape is applied to skirting and hand rails so they are easy to see.

Non slip fibergrip or aluminium nosing is used on stair edges to increase safety as well as to be seen in a dark environment.
SAFETY CLOTHING

HARD HATS
- Industrial Safety Helmets-Peaked Style Type-A (Jockey)
- Complete with 6-point Suspension Head Gear and Cushion sweatband.
- SABS SANS 1397 Mark and DME Certification

EAR PROTECTION
- UVEX Whisper corded earplugs
- Reusable earplug providing economical and comfortable all-day protection
- Pre-shaped and pre-formed so not necessary to roll the earplug down before insertion.

SAFETY GOGGLES
- UVEX Ultrasonic clear lens Goggle
- Increased Peripheral vision and excellent anti-mist properties
- Fully adjustable headband, can be worn over prescription spectacles
- Compatible with disposable and half mask respirators

SAFETY GLASSES
- UVEX Wrap around spectacle
- Duoflex temples and lenses allow for custom fit, molded in nose bridge, sideshields and brow guard
- Scratch and UV-resistant ultradura coating
- Meets ANSI Z87.1-2003 and CSA Standards

**FIRST AID BOXES**

- Safe and neat wall mounted box

**FIRST AID REFILLS**
**LED SAFETY ROAD FLARE**

**SPECIFICATIONS:**

- **Light Source:** 16 Super bright LED’s giving 360° light
- **Visible Distance:** 300m - day, 800m - night, 15km underwater
- **Flash Patterns:** 9 different flash patterns
- **Magnet:** High powered magnet for vehicles and road surface
- **Battery:** Single CR123A rechargeable unit
- **Working Time:** Up to 100 hours depending on flash choice
- **Operating Temperature:** -40°C up to 100°C
- **Dimensions:** 108mm diameter x 35mm
- **Weight:** 200g

**APPLICATIONS:**

- Highlight working zone on the side of the road
- Traffic streaming for checkpoint or roadblock
- Road Closures
- Temporary helicopter landing Zone at incident
- Handheld use of officer in the road
- Personnel safety light, worn on clothing or Belt
- Highlight Airport working zone
- Increase visibility of highway construction
- Highlight broken down vehicle with no lights
- Speed Camera Maintenance crew
MINING AND ROADS continued...

SOLAR POWERED CATS EYE

SPECIFICATIONS:

Power Supply: Solar Power
Power Storage: Battery or capacitor
Operating Time: 72 Hours continuous after 8 Hour charge
Flashing Rate: 4HZ
LED’s: 2 x 3 pcs super bright (18 milli candelas per LED)
Visible Distance: Over 500m
Lifespan: 3 - 5 Years
Temp Range: -20°C to 70°C
Composition: UV resistant Polyvinyl chloride
Compression Resistance: 10 Tons

FEATURES:

• The round design decreases impact resistance, improving strength
• Two reinforced veins are designed inside to improve compression resistance
• Solar panel, electronics and optics are sealed inside making unit waterproof
• LED options are available in Red, Yellow, Blue, Green and White
• Two screw holes are designed on either side so unit can easily be fitted to surface
• LED’s are available in Flashing or Non Flashing options
• Weight: 270g
• Size: 116mm x 21 mm (H)
# PHOTOLUMINESCENT

## PHOTOLUMINESCENT PAINT (GLOW IN THE DARK)

- **Glow Time:** 24 Hours
- **Packaging:** 5LT Tubs
- **Shelf Life:** 10 months

## PHOTOLUMINESCENT TAPE (GLOW IN THE DARK)

- **Glow Time:** 10 Hours
- **Dimensions:**
  - Large Roll 55mm x 45.7m
  - Small Roll 12mm x 6m
- **Supplied with self adhesive backing**
